NEWSPAPER BAGS

Newspaper Bags from yesterday's newspapers are now being made by Green Home as a job creation project. The bags are made from recycled newspapers, and cardboard to strengthen the base, with rope handles. All materials used are biodegradable and recyclable.

These are fantastic give away or gifting bags for events and functions. For branding options, to place your order or for more info call 021 762 6033 or email info@greenhome.co.za .
